2. **Your perceptions of the weaknesses of this course.** What particular teaching methods or assignments were not helpful to you in learning? Why not?

My one critique is that sometimes Ms. E gets "stuck" on certain things. In one class, a student had a question so she spent almost half an hour trying to troubleshoot it. It may be more effective to take bigger problems outside of class.

1. Your perceptions of the strengths of this course. What particular teaching methods or assignments helped you to learn the content or the skills required in this course?

TAKING THE TIME TO LOOK AT PROJECTS INDIVIDUALLY
AND WORK MORE HANDS ON TO SOLVE ISSUES. ALSO USING THE
SCREEN AND HAVING US FOLLOW ALONG.

2. Your perceptions of the weaknesses of this course. What particular teaching methods or assignments were not helpful to you in learning? Why not?

I DO NOT FEEL LIKE WE ARE COVERING ENOUGH INFORMATION.
ALOT OF PROJECTS AND ASSIGNMENTS GET PUSHED BACK. MAKES
ME UNSURE IF WE WILL COVER EVERYTHING, WITHOUT BEING
RUSHED AT THE END OF THE SEMESTER

3. Your opinion of the overall effectiveness of this course. What suggestions, if any, do you have for helping the instructor to improve the teaching methods and assignments in this course?

I THINK ITS GREAT, I HAVE LEARNED A LOT.
ONLY IMPROVEMENT WOULD BE TO DETERMINE A BETTER
SCHEDULE TO ALLOW FOR EVERYTHING TO STAY ON
SCHEDULE AND NOT HAVE TO BE PUSHED BACK OR
DELAYED.

Maybe have sample or template of scripts as a starting point & add to it during class exercises, instead of trying to keep up typing along in class. Just a basic starting script.

3. **Your opinion of the overall effectiveness of this course.** What suggestions, if any, do you have for helping the instructor to improve the teaching methods and assignments in this course?

I feel with programming experience, the course was effective at teaching concepts related to JavaScript. However, I would suggest that someone without experience would struggle

Showing the coding and terms on the t.v step-by-step really helped me. I compared what I had to what she had to see what I'm doing right and wrong.

2. **Your perceptions of the weaknesses of this course.** What particular teaching methods or assignments were not helpful to you in learning? Why not?

I feel she had the mindset of skimming over basics because the majority of the class had programming experience, and I had trouble keeping up. The content felt rushed.

3. **Your opinion of the overall effectiveness of this course.** What suggestions, if any, do you have for helping the instructor to improve the teaching methods and assignments in this course?

I'm slowly catching up and her help assisted my learning greatly, but I'd slow down the content.
