<i>1. Your perceptions of the strenghts of this course. What particular teaching methods or assignments helped you to learn the content or the skills required in this course.</i>																										
This has been a straight-from-the-book course, with no interaction from the teacher.																										
<i>2. Your perceptions of the weaknesses of this course. What particular teaching methods or assignments were not helpful to you in learning? Why not?</i>																										
Same.																										
<i>3. Your opinion of the overall effectiveness of this course. What sugesstions, if any, do you have for helping the instructor to imporve the teaching methods and assignments in this course?</i>																										
The boook used for this course is old, and I think some of the advice is no longer valid. Again, it sould help for the teacher--who in other classes has been one of my favorites--had some involvement in the class.
