1. *Your perceptions of the strenghts of this course. What particular teaching methods or assignments helped you to learn the content or the skills required in this course.*

She is very understanding and truly cares about the students' learning the material and understanding everything. When I ran into a problem, she was very understanding of my issue, and allowed a period of grace to allow me to submit the assignment due to the circumstances I was dealing with. Genuinely cares more about the students and producing good work rather than not allowing any exceptions. Dr. DuPont is fabulous!

2. *Your perceptions of the weaknesses of this course. What particular teaching methods or assignments were not helpful to you in learning? Why not?*

The one weakness I would think is that for it being an introductory course, there is an overwhelming amount of assignments. Personally, I feel as though I can keep up once I got into a rhythm, but it was a shock at first for how much work is assigned being that it is an introductory to computers class.

3. *Your opinion of the overall effectiveness of this course. What sugesstions, if any, do you have for helping the intructor to imporve the teaching methods and assignments in this course?*

I love this course! I was dreading computer class before this course, but I am so so happy I have Dr. DuPont and this course!
