I am pleased to have the opportunity to review the portfolio of **Rebecca Elinich**, Assistant Professor of Multimedia Communication. As evidenced consistently throughout her portfolio, Rebecca is on the front lines with College-based initiatives, from her department head duties to the College in High School program. She has also worked extensively within her department to mentor new faculty, provide content-area-specific information at multiple Open Houses, and continue to grow and build the innovation lab.

Rebecca's portfolio presents evidence of her excellent rapport with students, from handwritten student notes to her particularly high Survey of Student Opinion scores in the area of "Shows respect for students," "Encourages student questions during class," and "Answers students' questions thoroughly." I have certainly noticed and appreciated similar help from Rebecca; I'm glad she is right across the hall as I settle into my first full year here at the North campus!

I also notice Rebecca's good work with Open Educational Resources, the development of grant opportunities, and the finalization of her doctoral degree. Despite these myriad responsibilities, Rebecca achieves an incredible balance with her service to the college. She is truly an excellent role model for me, for my colleagues, and for our students. Her portfolio appears to be complete and thorough. I appreciate the opportunity to review the work of a colleague in another department so I can nurture a more substantial picture of our academic programs.

Best,

A handwritten signature in blue ink, reading "Ashleigh M. Fox", is written over the typed name.
