I learned a lot about the Unreal engine.

2. **Your perceptions of the weaknesses of this course.** What particular teaching methods or assignments were not helpful to you in learning? Why not?

The course has a lot of step-by-step instructions that apply to earlier versions of the Unreal engine. It is sometimes difficult to complete assignments because instructions are so dated that they no longer apply. In some of the step-by-step assignments, I don't understand the big picture.

3. **Your opinion of the overall effectiveness of this course.** What suggestions, if any, do you have for helping the instructor to improve the teaching methods and assignments in this course?

The course provides a good introduction to the Unreal engine.

The course covers the basics of the program very well

2. **Your perceptions of the weaknesses of this course.** What particular teaching methods or assignments were not helpful to you in learning? Why not?

The course moves too fast, though this may be because we have had class canceled twice.

3. **Your opinion of the overall effectiveness of this course.** What suggestions, if any, do you have for helping the instructor to improve the teaching methods and assignments in this course?

The course is undoubtedly effective, though because class was canceled twice I feel like we are falling behind. This is not the instructor's fault, but it still hurts my academics.

Designing levels and applying the principles of design to assignments are fun and enjoyable.

2. **Your perceptions of the weaknesses of this course.** What particular teaching methods or assignments were not helpful to you in learning? Why not?

The feeling of being held back from learning by students who ^{don't} care about the subject, and constant distractions. It feels at times not like a ~~class~~ care free & learning environment.

3. **Your opinion of the overall effectiveness of this course.** What suggestions, if any, do you have for helping the instructor to improve the teaching methods and assignments in this course?

Be more strict in the classroom, the students constantly talk over you and its becoming distracting. Especially during testing, tell students to keep their voices down and stay in their areas.

<p><i>1. Your perceptions of the strenghts of this course. What particular teaching methods or assignments helped you to learn the content or the skills required in this course.</i></p> <p>I think this course is good overall. It is good to have a resume, cover letter, and portfolio for future jobs that have been gone over by a professor so they can say whether or not something is not working. The reading assignments are helpful to gauge the whole process of job searching.</p> <p><i>2. Your perceptions of the weaknesses of this course. What particular teaching methods or assignments were not helpful to you in learning? Why not?</i></p> <p>I don't mind reading but longer text material gets dry over time and is hard to stay focus, this is probably more a personal problem than a classroom teaching method. Maybe find news articles that are shorter in length or YouTube videos to break the amount of reading and to change up the learning experience.</p> <p><i>3. Your opinion of the overall effectiveness of this course. What sugesstions, if any, do you have for helping the intructor to imporve the teaching methods and assignments in this course?</i></p> <p>I think this is a great course. I feel every education discipline should go through a class like this to get them focused on their career search.</p> <p>Again, maybe find some videos or examples of work for various disciplines such as web development, graphic design, programming etc. or a mix of them. Possible show examples of going from one career choice to another.</p>
