Subject: Review of Dr. Rebecca Elinich Dupont Portfolio

Dean Trettell:

I am pleased to review Dr. Dupont's CCAC academic portfolio found at the referenced Web site. Dr. Dupont has assembled an impressive list of activities and achievements at CCAC, both in the classroom and in support of the college and its mission.

With respect to teaching students in CCAC Multimedia courses, her portfolio demonstrates a thoughtful and student-centered approach to learning through her sample class outlines, student assignments and class handouts (in the form of YouTube videos). In addition to her teaching responsibilities, Dr. Dupont serves as a North Campus academic advisor, providing students assistance in planning their studies as well as information about available CCAC services.

In addition to being the only faculty member solely responsible for CCAC Multimedia courses and program, Dr. Dupont spends a considerable amount of time involved with professional development as evidenced by completion of her PhD in Communications Media from IUP in May 2020, involvement with supporting an AI Grant proposal through Google (resulting in the creation of two new courses in the Data Analytics curriculum) and assisting administration by creating various Web informational and landing pages for CCAC North Campus initiatives

Dr. Dupont also provides service to the college through her role as Secretary of the College Council Assessment and Research Subcommittee and as the North Campus Computer & Information Technology Department Head, which includes Multimedia and Data Analytics. As a fellow CIT Department Head, I have enjoyed working with Dr. Dupont in our many meetings and discussions involving curriculum proposals, scheduling, and college-in-the-high-school initiatives. I have found her to be dependable, thorough, and timely in her responsibilities. In addition, Dr. Dupont is someone that you not only look forward to work with, but also someone you can call a friend.

Regards,

Prof. Walter Pauli

Computer and Information Technology

CCAC Boyce Campus
