

Summary of results for term 20FA for DuPont, Rebecca (0064215)

Average	Questions
4.9	1. Defines new or unfamiliar terms Online: New or unfamiliar terms are highlighted in the textbook or in the material on the course site.
5.0	2. Answers students' questions thoroughly
5.0	3. Explains important concepts by using techniques like the chalkboard, over-head screen, demonstration, handouts, or other methods. Online: Important concepts are explained clearly on the course site.
4.9	4. Explains subject matter and assignments in familiar, understandable language. Online: Subject matter and assignments are presented in familiar, understandable language.
4.8	5. Teaches without reading too much from the book or from notes
4.8	6. Develops an online method to encourage students' questions and comments. Online: Encourages students' questions and comments during class.
5.0	7. Responds to student errors constructively.
5.0	8. Recognizes students for good ideas.
4.8	9. Develops an online method to stimulate discussion. Online: Presents questions to stimulate discussion.
5.0	10. Presents challenging ideas and assignments.
4.6	11. Uses a variety of activities in class. Online: Uses a variety of activities.
4.8	12. Course segments indicate transition from one topic to the next. Online: Indicates transition from one topic to the next.
4.8	13. An overview of the material to be covered is outlined in the course outline. Online: Gives an overview of the material to be covered.
5.0	14. Explains how the topics taught fit into the class.
4.8	15. Stays on the major point or points of the lecture or topic to be discussed.
4.8	16. Asks if students understand before proceeding to the next topic.
4.9	17. States the objectives of each unit and of the course. Online: The objectives of each unit and of the course are listed.
4.8	18. Provides information on what areas will be covered on tests. Online: Tells students what areas will be covered on tests.
5.0	19. Provides information on what is expected on assignments. Online: Tells students what is expected of them of assignments
4.9	20. Informs students of test dates or assignment deadlines.
5.0	21. Material is presented clearly. Online: Speaks clearly.
5.0	22. Shows respect for students in all communication. Online: Shows respect for students.
4.9	23. Available outside the classroom for individual discussions with students. Online: Office hours are listed on the course site.
5.0	24. Offers to help students solve academic problems or suggest possible ways students may get necessary assistance. Online: Provides information on resources to help students solve academic problems.
3.9	25. Examinations and assignments are graded and visible in a reasonable period of time. Online: Examinations and assignments are returned in a reasonable period of time
4.9	26. Responds to emails and other questions in a reasonable amount of time.

1. *Your perceptions of the strenghts of this course. What particular teaching methods or assignments helped you to learn the content or the skills required in this course.*

I think the documents my professor provides in our weekly course modules have been the most helpful to me during this class. My professor really took the time to have a visual walk through of the topics we cover in photoshop.

2. *Your perceptions of the weaknesses of this course. What particular teaching methods or assignments were not helpful to you in learning? Why not?*

I think the class isn't interactive enough. I feel like 90% of the time we are just watching our professor do what she wants us to be able to do, but I personally am not able to learn software through strictly watching someone, I need to participate and follow along. The only thing preventing me from doing so is the speed at which my professor goes.

3. *Your opinion of the overall effectiveness of this course. What sugesstions, if any, do you have for helping the instructor to imporve the teaching methods and assignments in this course?*

I wish the class was a little more step by step. I am a complete beginner to Photoshop software and this class has definitely been very challenging trying to teach myself how to do the things the professor did in class. On the bright side I think that my professor is clearly well versed in the software, and I feel like if I ever struggle with a subject she would be more than willing to help me in office hours!

1. Your perceptions of the strenghts of this course. What particular teaching methods or assignments helped you to learn the content or the skills required in this course.

I really enjoy the follow along assignments. They show the tools in use and how to locate even more options out of them.

2. Your perceptions of the weaknesses of this course. What particular teaching methods or assignments were not helpful to you in learning? Why not?

Just a bummer we couldn't have one on one time with the professor.

3. Your opinion of the overall effectiveness of this course. What sugesstions, if any, do you have for helping the intructor to imporve the teaching methods and assignments in this course?

I think it would be awesome to meet one on one, schedule a zoom meeting once a week for 10 min or so to ask questions and get individual feedback.

1. Your perceptions of the strenghts of this course. What particular teaching methods or assignments helped you to learn the content or the skills required in this course.

Looking through the provided documentation.

2. Your perceptions of the weaknesses of this course. What particular teaching methods or assignments were not helpful to you in learning? Why not?

I see no real weakness of this course.

3. Your opinion of the overall effectiveness of this course. What sugesstions, if any, do you have for helping the intructor to imporve the teaching methods and assignments in this course?

Trying to get assignments graded on time would be my only suggestion.

1. *Your perceptions of the strenghts of this course. What particular teaching methods or assignments helped you to learn the content or the skills required in this course.*

I love how my professor really invokes critical thinking during class about topics relevant to the class. I think it's so important for this specific class to be constantly thinking about topics from all angles and really stepping out of our mindsets to think like game designers.

2. *Your perceptions of the weaknesses of this course. What particular teaching methods or assignments were not helpful to you in learning? Why not?*

Sometimes we end up really going off topic and it's a little bit of an annoyance, but even though it's off topic, it's still relevant because we are talking about video games and I can live with that.

3. *Your opinion of the overall effectiveness of this course. What sugesstions, if any, do you have for helping the intructor to imporve the teaching methods and assignments in this course?*

I think the course is really well structured. I think the professor really took the time to plan out this course and made good decisions about how to go about it in a virtual environment. My only constructive criticism would be to spend a little more time talking about assignments and really making sure our lessons correlate with the corresponding assignments so we don't have to spend hours writing a paper trying to think about how the professor wants it done.
