1. Your perceptions of the strenghts of this course. What particular teaching methods or assignments helped you to learn the content or the skills required in this course.

Dr. D is excellent at explaining concepts, and giving live demonstrations of new material. She is one of the most open, and helpful professors I've ever had, and is adamant about making sure we thoroughly understand a concept or technique before a class is over. She always provides us with a plethora of pertinent reading material that helps up work through assignments and projects. Overall, she knows this is a tough subject matter and makes sure she gives us as much information as she humanly can on blackboard and in class.

2. *Your perceptions of the weaknesses of this course. What particular teaching methods or assignments were not helpful to you in learning? Why not?*

Unfortunately for us students, the weakness of the course is the demanding programs we use. By no means am I complaining about using them, my computer just struggles a lot handling them. It's more of a personal problem than a problem with the class and I'm sure I'm not the only student who struggles sometimes running the programs.

3. *Your opinion of the overall effectiveness of this course. What sugesstions, if any, do you have for helping the intructor to imporve the teaching methods and assignments in this course?*

Fantastic and very cool class. This is what I want to do as a career and I love that I'm getting a ton of experience now with this class!

1. *Your perceptions of the strenghts of this course. What particular teaching methods or assignments helped you to learn the content or the skills required in this course.*

I like the lectures of the course that break down difficult concepts so when I seek outside sources, I know what they are talking about and referencing. I also find it helpful that we are allowed to seek outside sources with citations.

2. *Your perceptions of the weaknesses of this course. What particular teaching methods or assignments were not helpful to you in learning? Why not?*

No weaknesses in course, I think the content flows and makes sense for building an interesting and wide range of portfolio pieces.

3. *Your opinion of the overall effectiveness of this course. What sugesstions, if any, do you have for helping the intructor to imporve the teaching methods and assignments in this course?*

I do wish there was a better way to get feedback for projects. Since the class has become mainly virtual, I think it would be awesome if there was some type of implementation of seeing a walkthrough and pointers while looking at projects. Like a small screen recording or link to a private zoom recording of some kind.

1. Your perceptions of the strenghts of this course. What particular teaching methods or assignments helped you to learn the content or the skills required in this course.

None, it has only been 3 weeks in the course, this survey is a bit early for that. Though for it being 3 weeks we are still working on just writing resumes, which I was expecting this class to not cover for so long.

2. Your perceptions of the weaknesses of this course. What particular teaching methods or assignments were not helpful to you in learning? Why not?

The fact that the class runs on a Wednesday to Wednesday schedule is strange and does not really mesh well with the time I have available each week for class work.

3. Your opinion of the overall effectiveness of this course. What sugesstions, if any, do you have for helping the intructor to imporve the teaching methods and assignments in this course?

Decently effective

1. Your perceptions of the strenghts of this course. What particular teaching methods or assignments helped you to learn the content or the skills required in this course.

I love how Dr.D always demo's for her classes, and is willing to help students create something amazing even if they need a little more knowledge given! She also always sounds excited to teach which motivates me to want to come despite the situation at hand.

2. Your perceptions of the weaknesses of this course. What particular teaching methods or assignments were not helpful to you in learning? Why not?

No weakness that i can think of.

3. Your opinion of the overall effectiveness of this course. What sugesstions, if any, do you have for helping the intructor to imporve the teaching methods and assignments in this course?

This course is effective if you want to put the work in. It can be stressful if you get stuck, and can be tough. Keep doing what your doing Dr.D! Your the best!

1. Your perceptions of the strenghts of this course. What particular teaching methods or assignments helped you to learn the content or the skills required in this course.

I love that this class is teaching us how to use multiple programs! This is why I signed up for college. Dr. D knows what she is talking about and her confidence while teaching us these programs unapologetically displays that. I am so happy I took this course because now that I have learned these programs I feel so much more confident in the future hunt for jobs. Excellent class and excellent professor!

2. Your perceptions of the weaknesses of this course. What particular teaching methods or assignments were not helpful to you in learning? Why not?

My only complaint is we don't get our grades back for assignments as quickly as I hope sometimes.

3. Your opinion of the overall effectiveness of this course. What sugesstions, if any, do you have for helping the intructor to imporve the teaching methods and assignments in this course?

This is an awesome course, well taught by someone who knows what they are doing. I always feel like I am being taught new and interesting things, I always feel like if I am confused I can ask questions and have them answered promptly.
